Art Unit: 2163

DETAILED ACTION

Claims 7-14 are pending in the application. Claims 7 and 11 are independent claims. Claims 1-6 are cancelled.

Drawings

The drawings are objected to under 37 CFR 1.84(o) because they fail to show necessary textual labels of features in Fig. 1 as described in the specification. For example, placing the label, "namespace" with element 1 of fig. 1, or "attributes" with elements 10 and 20 of fig. 1, would give the viewer a clear understanding of the drawing. Please provide all textual labels for elements of figure 1. Also, any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Application/Control Number: 10/532,732

Art Unit: 2163

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 7-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Belfiore et al. (US 6990513).

As per claims 7 and 11, Belfiore et al. teach

a method for defining structures of object **and/or** data models, wherein schemata describe the structures – col. 3, lines 14-55; col. 13, lines 1-67.

each schema having a namespace, type names, and element names – col. 14, line 54 to col. 15, line 12.

characterizing a schema by assigning a version of the schema to a first attribute of the schema – col. 12, lines 34-54; col. 22, lines 18-37; col. 42, line 65 to col. 66, line 14.

wherein the namespace, type names, and element names of the schema are maintained independently of the version - col. 14, lines 54-65; col. 42, lines 25-64.

wherein types and elements are expanded maintaining the respective type names or element names - col. 12, line 58 to col. 13, line 67; col. 22, line 18-37.

and wherein unexpanded types and elements are accepted unchanged into schemata characterized by a newer version from types and elements used in schemata characterized by an older version – col. 12, line 58 to col. 13, line 67 (core schemas which are a minimal common schema that defines only things that most application will have in common); col. 14, lines 39-48; col. 42, lines 25-64.

Application/Control Number: 10/532,732

Art Unit: 2163

As per claims 8 and 12, Belfiore et al. teach

wherein a calendar date can be assigned via a second attribute to a version of the schema - col. 12, lines 47-54; col. 45, lines 15-18.

As per claims 9-10 and 13-14, Belfiore et al. teach

wherein the schemata are described by an extensible markup language – col. 13, lines 32-41; col. 14, line 49 to col. 15, line 5.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LINH BLACK whose telephone number is 571-272-4106. The examiner can normally be reached on Mon.-Thurs..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on 571-272-1834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
